Rev. Sheldon Jackson D.D.

Dear Doctor,

I have just written to Dr. Thomas about Children for Carlisle. Something may possibly be done here if the Dr. Comes. But mind you all Jemez is where "Satans seat is." Come and see us if you can and if you should be going out in the buckboard and could not stop let me know and I will meet you. I am intensely anxious about a Teacher and I hope you will

not fail to get one here.
It is a critical time in
this field just now and
you must all stick close
to us and do all to help
or we will have to give up
this field to others to by their
hand. How Could we get
2 barrels of good States
apples for the School Children.
Fruit is so scarce here that
some apples would tickle the
little Ingins all to pieces.
I hope to hear from you if
you cannot come out.
Much Love.

Sitka Oct. 11th 1880.

Dr. Jackson Dear Brother.

Yours of Sept. 10th received yesterday. We were sorry to learn that you had been sick. but glad that you were able to be about again. Our prayer is that your life & health may be precious in the sight of our Father. I hope you have received the little piece I wrote for the R. M. P. & that it may be of some account. I promise again that I will try & see that you receive something more regularly for the paper. I did not write anything this month for I have not been able to write much a good part of the time. Mrs. L & I were both quite unwell a week ago. Sab. week we were unable to attend services atall. We are feeling better now but I am in pain all the time while I write.

I have managed by spells to make out a plan & description of the Hospital building. I do not claim that all the measurements &c. are exactly perfect. but I think nearly so. When I wrote to Mrs. Haines sometime ago I said I thought the building could be put in such order that we could get along with it for sometime at much less cost than I have named in this. Since experience I have had since writing to her leads me

to the conclusion that $2500.00 would be little enough. When I wrote to her I had thoughts of being able to do a good deal of the work myself but I have been compelled to abandon that idea.

There are no government buildings here that it would pay to move. They are mostly log buildings & not well suited to the purpose you propose. I spoke to Capt. Brandeler & Col. Ball about the letters. Capt. B. said he would rather not write anything, as other parties wished the property, but he expected to be in Washington & would be glad to do all he could personally. Capt. B. has been released from command of the Jamestown at his request.

I have also made a copy of the plans & specifications of the building & will send to Dr. Kendall.

We shall also send a petition to the Board signed by Mr. Brady, Miss Austin & myself asking that you be authorized to press the claims of Alaska before the authorities at Washington.

Shall be obliged to close. Hope to be favored with a more like writing next time.

Yours in Christian bonds

Dear Dr. Jackson:

Yours of Sept. 10th came to hand yesterday. I am glad that you are still interested in these people. I believe that your are on the right track. You have seen Enough of Mr. Duncan's plans & methods to satisfy you that you are not wrong in advocating such an enterprise for these people. They are ready & most anxious to do any kind of work for reasonable pay. I am fortunate in having Mr. J. C. Reilly to refer to in reference to matters

connected with the Cutting Packing Co. Cannery. He worked at the business for two years & has kept the books for two years. In the first place the Co were at too great an expense for material & labor. The first season the freight was $10. per M. for lumber & they agreed to pay passage of laborers up & down from Portland. They paid $10 per ton for fish. This is twice what it ought to be. If a cannery uses its own seins they can be had in abundance for $5. per ton. Wood delivered at the cannery will cost $2. per cord. It will require about 100 cords for 8000 cases. It will require about 2000 bushels of Charcoal & ought to be obtained for about 15¢ per bu. All told cans cost

The Co about 5¢ each for 1 lb cans
Boxes will cost 18¢ for holding
4 Doz. Cans. Last Season they had
16 White men & 75 Indians on an
average. The former recd about
$45. & board & the natives $1. with-
out board last season. The
first they were boarded but
this did not pay. Last year
they fed themselves & there
was no complaint on their
part. They have 10 Kettles
4 boats worth $150 each — 3 Seins
@ 150 each 2 Salting tanks & in
fact every appliance & every
thing is in good order
Reilly & King the man who is
now in charge of the place
say that every thing is in good
order. Mr. Pickett who has been
in San F. & is now on his way
back writes that the cannery
may not run next year

The Co. have two other establishment below. I think that they would sell this property at 50 or 60 per cent of what it cost them. The wharf cost nearly as much as the buildings. The California can lie at it at low tide. I don't see why there should be any reasonable doubt of the enterprise. The run of Salmon here this season was extra fine & fully equal to Columbia river fish. The halibut can be caught at any season. The Capt. of the Schooner said that the business would pay by selling the smoked fish ready for use here at Sitka for 5¢ per lb. When you are in Chicago you can inquire into the halibut business as Leyndt & Hough the

firm in San F. that sent out the Gen. Miller, are preparing the fish for that market. Mr. Picken writes that they are shakpers & evidently want to keep the business to themselves. The salted sides delivered in San F. cost them about 3¢ per lb. A 75-ton schooner plying between this place & San F. would bring the freight to a minimum This does not require so much capital. The halibut the cannery & salmon mill are sure industries & you need not be afraid to urge the matters. The natives can be taken in hand & brought under strict control. Sitka is doubtless the best place as the fish can be had here as abundantly

as anywhere else, can be reached easily by rail from San F. Besides it is as well to take this tribe in hand as vigorously as any other. While in many respects they are worse than some other yet for such an enterprise they have decided good qualities. I have held out & prayed for such a work to be given to these people & May God grant that they have it by another season.
Well I must cut short. When my friends return I shall write you more at length about various matters here. I may possibly go east this Winter or Spring.

Yours Sincerely
John G. Brady.

Rev. Sheldon Jackson,
Dear Sir,

Your favor of 20th Ultmo. received by me at this place near Moqui, where I have been for the last two months owing to the recent illness of my brother, who I am pleased to state has now entirely recovered; and I expect his return here several days past, and am rather disappointed at his delay, as I had promised the principal chiefs to accompany them on a trip to the Eastern part of the reservation, their to visit the different Camps for the purpose of trying to put a stop to their trading for whiskey. Ganado Mucho and other principal chiefs have gone and I trust their efforts will meet with success. I also trust you will do all in your power to have a law passed, which will punish severely without the option of fine all persons caught selling whiskey or other intoxicating liquors to Indians, as it not only reduces the Indians to poverty but incites them to murder for the purpose of obtaining money or stock to procure whiskey.

I send you a letter Carefully written by Navajo children, and as soon as I can possibly leave here will do all in my power

to get together some children. I will also see Manuelito and speak to him of what you write.

Am just in receipt of a letter from Capt. Tennett who is of the arrival of Moqui Agency, hope to see him here in a few days, so that I can get my business with the Agency due now for about a year.

I Thank you for your very kind wishes in my behalf and assure you should I receive the appointment, I shall do all in my power for the advancement & civilization of the Navajos.

Dear Brother.

I have Yours of the 14. 20. & 22. insts. I have to communicate that our friend Mr. Critchlow is now at Salt Lake City says they can go over the mountains for 20 days more. I telegraphed him am here ago. "Rev. McCulloch. & wife Elko has appointed & ready. telegraph them to accompany you" & to M C C. "Report to agent Critchlow immediately at Salt Lake City".
I think we shall get that right through.

Mrs. Graham has written you about Mr. & Mrs. Perkins for the Navajoes - I shall write at once to the Department at Washington to find what they will do for Mr. P. as to finishing the Building - If Mr. Boyd does not stick at Santa Fe I shall be in favor of sending Mr. McGarrahy & wife - & that will fill that place in a double sense - Church & School -

3. As to another teacher for Missilla - another for Hot Springs - & teachers for the Pueblo Boarding School & three new teachers for Cimarron - La Jara &c. will talk with Mrs. Herring as soon as she gets home from Boston.

I did not see her at Clifton as I found dispatch that got me home Sat. last. But I shall want you to visit Morton & his field - He is taking hold too rank - You must supervise & think before we make the appointments. At all events, we shall transact his business carefully.

4. He commissioned Miss Grindstaff for ~~San~~ San Luis when Miss Ross was.

5. He probably shall grant Leitsworth $200 but not commission him for San Luis Valley.

6. As to appointing you for superintendent of School Work

The Board declined to
appoint you 1. because the
work seemed not yet
sufficiently developed
for such a museum &
2. Because, having ap-
pointed Mr Chittan for
Utah - he will take the
largest half of the School
work into his own hands -

I hope you will go to Lo-
cono & Priscilla before you
return - I have a card to-
day from Gaylor at Fort
Wingate -

I want to hear from
you soon -

My dear Friend I take my pen for a few words after watching for 5 nights with my husband who had a leg broken, accident, being Runched down by the pole of a lumber wagon breaking the head bone & occasioning severe injuries - for night I began to hope that he is to be spared to me - but I am so weary that I can only say a few words - I was not able to see Dr Reynolds on account of this accident but Mrs Heath went down for me - & her report was that which I gave you without seeing him - Mrs Hess was a Dr Boyd

who was going if not in the St Johnsbury
It had in view for the Church Kindergarten
for the School - but would think well of
this Mrs Langley, if there was no objection
with the first one - I think you must
arrange with Mrs Perkins that she remain
until three are ready to take her place
so that the School should not suffer,
also until the one taking it should get
acquainted with her pupils & method

Dear Bro Jackson – This is Monday & we had Communion yesterday & I am very tired. I could not have got through at all if Bro. Jacobs had not been with me. We had a meeting on Sat. P.M. which was not very encouraging. On Sunday morning just at time for Service there came two to unite with the church & be Baptized with their child & three more to unite by Certificate. At the evening session there was another who wanted to be baptized – Thus you see irregularity – Things here tho' in the end they are encouraging. They have received in all 5 by cy & 3 in Pot Mexican & faith have no idea of rule & regulation in such matters. I have a time trying to bring them to a degree of punctuality in beginning our Services. I held communion at La Jara (Rio) last Sun-

day 17th inst – two previous days. Next Sunday there will be communion at San Rafael & on the Sunday following at La Jara (No 2). The people tell me I am learning the language very pronto. I read a talk of 15 min yesterday on Casa Cena de Señor. As to the Schools – I have concluded on further examination it is better to remain here at Cerrero. Mrs Morton will therefore take the School here & I will send Miss Kipp to La Jara & Miss Higgins to San Rafael. The school at La Jara will be a good one I think & the family with whom the teacher will live is one of the best among the Mexicans. They will put up a room for the School immediately. It will be less trying to a young lady there here. They will furnish board wood &c. What this will amount to in money we cannot tell as yet but if it do not reach $200 at best Mrs Ch. proposed deducting from her Salary – She will make up that

am I from his salary here. I would
Bro Travis that $20 would be deduct-
ed from the salary at this point.
Our School here Opens Nov 1. I have
not yet heard when Miss Kipp &
Higgins will be here. Will write them
today & tell them to wait a letter
from you. Send them their orders on
the A. T & S. F to Miss Jennie E. Kipp
Cameron, Mo. & Miss Mary B Hig-
gins Osborn Mo. - Please send them
at once as our schools need to be open-
ed as soon as possible.

Another matter I ought to mention
& do it confidentially & yet feeling
you ought to know it. Our Pres after its
organization recommended that Bro Tait-
borth be sent to Del Norte & La Jara (at
$700 per year) - for 5 months. There were
only 6 ministers & 2 or 3 elders present.
(for a full year)
Bro T advocated it, in 3 speeches & Bro
T in 2. I then opposed it as visionary
& on the ground it was making a place
for a man at the expense of the Board.
It was voted down one for & two against

the rest not voting. I felt the responsibility of the matter too much & asked that all should vote. Bro D then made a motion for 5 months & no one seconded it till at last for peace sake I did so but would not vote. It was carried. I told them you ought to have some thing to say in the matter & then it so yet. I simply give you this information. I wrote the Bro to advance me some money but have not heard more yet & am much straitened if I do not get it from I must send cash or borrow.

Yours fraternally W.H. Merlin

P.S. I wrote the Bro of Pub to Bro J & I do hope for the work sake he will be commissioned.

My dear Bro.

On my arrival home from Lymond my wife informed me that a letter had been sent from your office. but had been mislaid or lost.

I have just had a conference with Howe and he tells me that it will be impossible for them to have the building ready before spring. hence you had better delay coming till then. It is very high, probably 5500 feet above the sea, and cold - too much so to prosecute rapidly any building during winter. I believe Mr Howe is of the opinion that you should send a single man. - I think it would be well to write for Mr Stevenson to return. It would be rather trying to a woman to be there alone, but if you have a family to go with, I should think it best to send a married man.

with no children - I am of the opinion that no Children ought to come in contact with this Kind of life - indeed I would not want mine to [illegible] in Alaska for it is a Second Sodom - where no perfect flowers and all of man is vile -
Write to Bro McCulloch - it was a wise thing not to send him as I find that while with the Indians he made them his enemies. Have they do not wish him, his wife or home Room for years. he married her out of my Church - in Sol - & there is no discount on her, she would do a good work any where - & if there is any other opening they might do well, I have said to our Home - that as soon as I hear from you I will let him Know, but it is possible that he may come here - within a week - for St Louis and you had better not let him a know. as to whom you intend to send, and to him. - I find Mr Howe very Pleasant and Gentlemanly in all respects & like him very much, and I should think that almost any Christian could get along with him as I - Ever truly Yours

And in case Dr Kendall is absent upon his visits to Missions & changes in the Board of the

Pueblo, Colo,

Dear Bro. Jackson

A letter from Chas. E. Walker, Pinchot Springs, says that Rev. Shepherd on account of his wife's health has decided not to remain at Evans this winter — Also that Pueblo & Ark. Valley want him at once and that he expresses himself ready to accept that field, and says he would resign to Santa Fe. If which you had appointed to him — Cannot that arrangement be made?

Rev. J. C. Eastman writes me from Las Vegas N. Mex. that Rev. J. McGaughey has written to the N. Mex. Conf. asking to remain at Trinidad & that Bro. McG. is adapted to that field. I have resigned him to you as I do not know McG. never heard him preach — speak, & know nothing about his work up in Wyoming.

Quite a number of us left Denver
before the Presy. of Pueblo adjourned.
Just before it adjourned Feltenmeth got
them to recommend him to the A.B.
at a salary of $1,000.= per annum,
for six months, with a "corresponding com-
mission" to the Chr. Endeavor.

I sent the recommendation to the
Board as stated clerk, but with
it I sent my personal protest
with good reasons why I should
not be granted. Do you think
the Board will listen to a private
protest in such a case? Or will
they say the Presbytery should know
best and must abide and look on
an individual letter as personal
spite?

Yours as ever

My Dear Sir

I write you to ask that you use your influence to secure for us the services Rev L. M Shafhurst now of Irwin, for this Church & the one at So. Arkansas. As Mr. S. has already advised you the effect of this attitude is such on Mrs. S. that it is decided unwise to take her to Irwin and Mr. S having been with us several days all our people here and at So. Arkansas will gladly unite in a request for his services.

It is of course possible that even a better man than Mr Shafhurst might be found for us, but - as I have had an opportunity to

the matter as to much feared
with him that we are satisfied
that he is much the best man for
us under the present circumstances
Mr Merritt has done us so much
damage that it will take months
if not years to place us in the
position where we might easily
have been now with a good man.
If Brayton were give him another
field or even permit him to go
to some other Body. they will be
very much to blame as they certainly
were in permitting him to come here,
for it seems impossible that he should
do good in any way. I do not say
this with any spirit of ill will towards
the man but from a conviction of duty
which I feel lies upon me.
I have but a few minutes in which
to write or would enter more into
detail. We are very anxious that
you should come here and ascertain
for yourself the exact condition of
matters

Very Heartily Yours

Ponca Springs, Oct 19th 08

Rev. Addison Jackson D.D.

My Dear Sir.

There is a saying, old and familiar, that "patience is a virtue".

I have been as patient as possible for me, but now my patience has ceased to be a virtue, and I take the liberty to write to you about a subject that not only troubles myself but others who are interested in the Spiritual Growth in this town.

My subject is Mr Merritt.

When Mr Merritt learned that this field was vacant, he informed Presbytery that he should come here, & that body, I suppose, wishing to get rid of him, allowed him to come. His first appearance at Ponca was in a wagon with several criminals attached.

which animates he was treating unmercifully. There were those who witnessed this prejudiced against the Church, for they said they did not want to hear a man preach in the spirit who could not preach in his own. And this my first meeting with him was while Assailing, when he came in meddling with my things and without knowing who he was, had my disgust for him thrown to agonies.

Since then I have learned that this is one of his characteristics never minding his own business but always meddling with others. And no matter to whom you are talking or how private you wish it to be, Mr Merritt must push his ears up close to hear & always must have his say in everything no matter whether it is anything that affects him or not.

Another matter that worries me is that he will come to Prayer Meeting

without having made the least preparation. He sits down & reads the next sabbath school lesson & then reads the comments on it that are in the Westminster Question Book & one Wednesday evening he forgot his Question Book & looked all over the house for one & when he could not find one I heard him ask Father Hamilton if he knew where the next lesson was & when he was told, read it & made a few comments on it which thoroughly showed that he had not even thought of it before. To cap the climax he came home from Presbytery in time for prayer meeting last Wednesday. The subject was "The Holy Spirit" & was announced by Mr Hamilton the previous Wednesday. Mr Merritt read the account of Paul and the other disciples being filled with the Holy Ghost. And they were all of one accord in one place said Mr. Merritt. Now he said we are not of one accord in this place

and therefore cannot expect to have the Holy Spirit with me. He said that Ched did not learn it until he went to Presbytery and said he, I learned it in this way; there was an application sent in that some person other than myself be sent here. Now Sir. It was a lie from beginning to end, for I know that Mr. Walker had a talk with him at least two weeks before Presbytery and told him, that we could not think of sending an application for his return; but he thought that I did not know about it. Now how can we respect such a man.

As I understand the matter of his commission, it does not allow him to engage in any business, while he has been hauling wood for different parties and yesterday he was going all over town to borrow $100. for

three months to have an assessment sunk on a mine in which he has a half interest.

One gentleman told me that he saw him come out of one of the two saloons & immediately tackled him for $10 & he would not lend him any money, he said, because he thought it would be the same as giving it to him, and he also said he thought Mr. Merritt ought to use a little common sense & not go to a saloon keeper to borrow money & especially such an one as this one.

I learn that his commission does not run out until December, and the question I want to ask is must we put up with him until then or cannot some way be devised to have him taken away from

here for such a man, as a missionary does more harm than good.

Rev Charles Sheppard came through here from Little Rock on Sunday morning at South Arkansas & will be coming here. The people like him very much & as he has to leave his wife here on account of her health will not be able to take her to Erwin. I think from what I hear people say, that they would be very much pleased here for the means of doing much good among us.

Amot Doke will be provided for which he can for sent here. I have also learned that the people of South Arkansas are very anxious that he be sent to us.

Hoping that Mr. Sheppard may be substituted for Mr Merritt and that immediately, I beg to be allowed to sign myself

Yours truly & your friend

Also — Prof. Robertson, one of

coming in; that there is substan-
tial basis in the character of the

seldom ever any preaching. Is it

Dear Brother, Though I have very little new that I can communicate to you, I desire to tell you something. This is a time when I procure fodder + corn for my horse + wood for the winter + also I have had to engage my little school room + the room for Miss Fletcher. It has kept me very busy. I am trying my sermons + preached every Sabbath since. Really, I feel on an average I have written a sermon every day. I have had to administer several times. Once + then, several times

Alameda, Monterey.
I have not yet received
Bernalillo & Placitas.
I expect to preach there
tomorrow. I have been
three times to Jemez. Last
day I preached twice &
baptized brother Jaramillo
& received three
adult persons into the
church. I do not know
yet when Mrs Smith will
come. Immediately
on her arrival to the

of those who wished to join us after invited them to know what steps to continue exhorting them to continue in the habit of making up their minds to join the Church with the rising of the work. However there seems to be a growing interest in the subject. On the 26th Sabbath we had 26 persons attended the service in Pasadena. The preceding Sabbath in another part of our town I had a good house with Italians very friendly disposed. They looked pleasantly. A man is going to open a box of Santa in the very Centre of our town. We 3 years ago by

Dear Bro.

Your postal at hand. I have been at Albuquerque & perfected our application for aid. It has passed thro' the hands of Bro. Shield & Eastman & is en route for New York, as a postal from Bro. E. informs me this morning. Dr. Ealy & I found it impossible to get any room in Albuquerque to preach in, & I so notified the Secretaries in my letter that helped to secure their aid for a Church there. Dr. Ealy has had his brother's wife & Children there, & She (his bro's wife) has had a long & Spelling Sick-

to be Cared not have
any Services at his
house. I trust now
however that in 60 days
we will have a nice
Church of our own
if the Boards respond as
Expected. I have
just written Dr Wilson
asking as Early atten-
tion to our application
as possible, as we
must make Adobes
Soon, or wait till
Spring. Perhaps
a Card from you
to Dr Wilson & Thos
Haines to the Same
effect will Secure
their early attention to it.
If you write, tell them
to give the full Amount
asked, for we Cannot

not do with any less.

I have entirely recovered from my last attack of fever, tho' I have done full duty since I got up out. I cannot say for a certainty that I can meet you at Albuquerque, as my last trip, 2 weeks ago, made me worse again.

If I do not meet you there, I hope you can stop off here.

I have, by God's help, got our Church finished. It is a neat & cozy room 19 x 40 inside, well seated, & with nice pulpit &c.

We have organized a Church with 14 Members

Have a Sunday School of 22 Scholars, proper

July

I ought to have mentioned that 2 more members are reported converted.

Wednesday night. The Class of Young Mexican girls in S.S. I expect is the largest of the Kind in the Ter. I have also arranged to begin a Class at my house tonight, to meet twice a week, of Grown men & Women, to learn English. Next Sabbath I must be here, I & Mrs Fulton both very much desire you to Come on Down here, I want to talk with you about the work in this section, & She Wants to tell you about the School, & Wants you to see how things are getting on. We Shall be disappointed if you do not Come. Can't you Spend next Sabbath with us?

Yours truly. S. L. Fulton

I have talked the matter over with Father Hamilton whose views are decidedly in accordance with my own. Now it is necessary for me to tell you right here that the people of this place and South Ark. have asked my permission to put in an application for my services. I have replied that while I have no objections to their putting in the application, I intend still to hold my self subject to your orders. They have accordingly agreed to make the application with the understanding that I am entirely free to act as I think proper, whether to go back to L. or to any point you may indicate. The people at both places have been quite urgent in their solicitations that I shd decide to settle here, but I have plainly told them that the circumstances are such that I cannot give them any definite answer at present. That is I have said as much to Bro. Walker & Father Hamilton, but have simply said to others that for the present at least I must go back to L. Now I beg of you if I are to be transferred, that you let me know just as soon as possible, who is to succeed me.

in order that I may post him thoroughly in regard to matters at S. The place as well as Gunnison, ought to be occupied uninterruptedly & by a man of energy & common sense. If he has these two qualifications there is no reason in the world why he should not succeed. I can write to him if you will give his address & assure him both as to the desirableness of the field & the means few & simple, by wh. he can occupy it successfully. There are some things wh. he must know however. Meanwhile I will proceed to D. & labor there as usual, getting everything into the best shape possible & saying nothing to the people about the proposed change until you notify me who is to take my place at once.

An energetic man could work both G. & S. with till Spring unless there shd be a more blockade. Please write to me (or telegraph) at Rocha Springs as my wife will forward at once in such a way that I will be sure of receiving wh. will not be the case if you direct to D. in the present state of the mail.

Very resply. Chas. M. Shepherd.

Mrs. Jesse L. Williams & Ft. Wayne
is our Pastor pro tem, until a regular organization can be effected at the meeting held in the absence from home, she left the arrangements for the meeting in my hands. I shall send in your note and if you do not receive a formal invitation from her to attend the meeting - it will only be, because hearing no meeting as yet; we have no funds to defray expenses. If you had expected to be present at the Synod, we should have been delighted. A little help just now in our first start might do much for us. Yours truly

Dear Bro:

Your favors of the 23d and 27th ult. are at hand.

I delayed writing you to make sure that Synod would not meet in N. E. this autumn. I find by your second postal you are apprised of the fact.

I am sorry you cannot come to Boston soon. You know our denominational isolation here. A visit from you would do a deal of good. The congregational benevolent boards & societies absorb everything here. Of all the Presbyterian churches outside of three or four are cong. in all but name. If we could only feel the grasp of the denomination upon us here Presbyterianism might have some back bone in it. But then you know it, and why should I repeat it. I shall anxiously look for some word from you anticipating an engagement at a later date.

I shall arrange for Mrs. Haines.

Rev. Sheldon Jackson D.D.,

Dear Sir: We have now been here since Friday the 15th. There has been a heavy fall of snow in the mts. and it seems difficult if not impossible for Mrs. Shepherd to go on to Ouray. The mining towns nearest here are almost shut in and the report is that there are three or four feet of snow toward Ouray. Under these circumstances I have decided to leave my wife here and proceed alone tomorrow to Gunnison en route for O. Furthermore the result of our stay here has been to establish the conviction in my mind that my wife will not be able to endure a higher altitude than this. She breathes here with no more than some comfort when quiet, and the least exertion is apt to bring on palpitation of the heart or severe pain in her side. All the indications are that each additional degree of altitude increases a strain on her system

which it is not able to bear safely or comfortably. Now I do not come to try any experiments & under the circumstances it has seemed best to me to report the state of the case to you at once. If I were indispensable to Irwin, or if there were no other fields open, it might be best that I should leave my wife below for an indefinite period & labor alone. But as it is I judge from what you said to me in Denver, that another man can be put into Irwin who will fill the place as satisfactorily as I, while I myself can be doing equally as much good in another field and at the same time enjoy the satisfaction of seeing my wife in a situation where she can have good health and be able to second me efficiently in my work. As for myself I should as lief labor at Irwin as elsewhere, and I think I have shown by my summer's work up there, my willingness to be stationed anywhere I can be made useful to the Church. Were it not a question of my wife's health & comfort I should unhesitatingly return to Irwin & labor there until plainly called elsewhere.

Dear Friend.

Your Kind remembrance in the shape of a lot of papers was very welcome. I have been very busy this year. so have neglected even my own Father in correspondence.

I dont know that I wrote you of organizing a church in Stevensville in May with eleven members most of them old Presbyterians gathered up. one on Profession of faith. Two from the M. E. Church South.

I wish to keep quiet here but expect in a year to organize at least one more in the Valley. Several are now ready to join us. if I will.

I am going the whole length of the valley once each month preaching in five different places. I travel one hundred & fifty miles in the trip & am absent six days. This part of the work seems hopeful & has plenty of room for development. Two good Presbn families have moved into the Valley lately & will unite with us. I am preaching here every Sabbath but one in the month. My buggy is worn out & I am wondering how I shall get another Does you know any first class maker that will let me have a new buggy at cost? Mine may stand another trip or two but I must soon have a new one. It costs as much to freight in a poor one as a good one. Can you get me special freight rate over the U. P. R.R. This is a question that concerns the work here so I write you.

Fleming has left Deer Lodge & expects to go east soon to remain.

Smith has left Helena so we lose as much as we had gained.

Kind Regards to Mrs D. & the girls. Yours truly

Dear Sir.

Received your letter yesterday advising me of an appointment as Head Teacher of the Pueblo Mission of the Rio Grande. I am very sorry that my arrangements here do not permit my acceptance of same, as otherwise I should have only been too glad to have availed myself of your kind offer. After a nights consideration it appears to me the more clearly that my duty lies here until the completion of my agreement with the Watrous School Board

Returned from my trip down the Lower Pecos. Travelled 350 miles afoot but rode back. The people of San Salomon, a village of Ysleta El Paso Co. Texas wish a teacher and preacher. A countryman Samuel R. Miller, mail-contractor has a ranche on the Limpio (Transparent or Clear Creek) a mountain stream running into the Pecos and heading in the Apache Mts. The priest an Irishman has rendered himself much disliked on account of his leech-like qualities in tithes and other perquisites. From what Mr. Miller told me, the field is ripe and a wedge could be entered into

the massy block of ignorance and superstition. There are two more American families in the neighborhood who would welcome a preacher. Should nothing better offer itself, it is my intention to go down there after the completion of my year here. What I mean by better, is not to be taken in a pecuniary sense, but a situation where I might find myself warranted in taking unto myself a wife. It is high time I was settling down, and this is not the place. Shall visit the missions of Acate and Agua Negra this winter along with Mr. Eastman, and alone. It is quite a revelation to

me to meet with such a God-fearing, Bible-loving community. The differences in favor of our young people are very marked. You can see a welcome in every countenance and a thirst for knowledge is planted, which with a little attention on the part of the Presbyterian Board of Missions, will bring forth fruits worthy of such a fine soil. The glens are much like our Scottish homes and the sight of the flowers native to the hills would alone repay a visit. When Agua Negra becomes better known it will be a sanatorium second to none in the territory. Mr Eastman has been there since our visit in July - and intends

going again soon. I shall buy and accompany him. Have been very busy with my books since I came back. They arrived safe from Fort Worth, Texas, and I am very happy to see their old familiar faces once again.

Now, dear sir, if you can do anything for the poor people of San Salomon, near Ft. Davis, Texas - please do it soon. The wedge can be driven in now. For information you can address Mr. S. R. Miller, San Salomon, El Paso Co. Texas. Mr. Eastman has already given you an account of the Negro Mission.

a teacher should be sent there also, and to save expenses, could teach three months in one place, and then move to another. Thus in a short time he could awaken such a thirst for learning, that the people would begin to claim their right to a share of the public school money. - which is the battle we must fight here. Should you wish it, I can give you my views more fully. I write these in hand, as I wish to answer your letter in time.

Yours truly
Joseph Boyle

Dr. Jackson,

Dear Sir & Brother,

I left home last week Tuesday morning. The B of H.M. had a meeting the day before. C. stopped to get a report on me was to the train. Dr. Roberts was off to Phila. but Mrs. Roberts said nothing was done — for the simple reason there was so much business on hand they did not get to it. Our school work &c. was not even mentioned, no more our own name. There will be another meeting (D.V.) in a fortnight — when we must hope to have the subject come up. Perhaps Dr. Roberts had mistaken to me. As many persons before followed him, C. could

not keep up with them.

We had excellent meetings at Salem N. J. (Synodical), & one really encouraging at Phila. at 1334 Chestnut St. Assembly Room. Mrs. Newkirk put out to invitations. Mrs. Green, Gregory, Boyd & I all said a few words, & Miss Noble took up the time. Dr. Dunn presided, & was appealed to to see to Synod of Phila.

We had a good meeting at Harrisburg yesterday (Sunday) afternoon in Dr. Robinson's Lecture-Room. & now again at Huntingdon. Am hurrying just off for Detroit.

Do you remember Miss Weist-ling here? She has been at Carlisle Barracks helping them. & S. Smith writes favorably of having her come. from letters from her. She might do well at one of the new Indian stations. I hope you are strong. I hope you are

ther has been a letter written to you by miss Conoway ~~that~~ which reflects some what my Christian Caricter of which i Spoke to miss Conabout and She told my to writ to you for the letter and you would Send it to me. I wish you would be So kind as to do So by sending to bro Morton Miss Conoway Said She thought She had done wrong in doing what She had done but would not Stat what it was. I tried very hard to get her to tell me what it was and Said She would not confess it Even if She new She had done wrong i told her i did not think that was a very Christian Spirit then She Said She would tell me if i would promis not to put it before the Church

which i could not do as i did not know how. She had told about me then she said she would not tell me. then i told her i would have to leave it to the Session of her Church She said she would not come before a Session on no Condition. telling me as she felt she Deserved it to have her Expelled from the Church a thing which i do not wish to do and told her so but wherein she has written things to you and Bro Lear which are not so she must rectify them
